

CRACIUN BIANCA

Beginner front-end developer

SHORT INTRODUCTION

As a beginner in Front-End Development, I am currently looking to work in a learning and challenging environment, utilizing my skills and knowledge I've gained during the Front-End basics course, to be the best of my abilities and contribute positively to my personal growth and gain real practical experience on large projects.

I AM A NEWBIE FRONT-END DEVELOPER WHO ENTERED INTO PROGRAMMING WORLD FIVE MONTHS AGO, WHEN I STARTED FRONT-END PROGRAMMING COURSE AT WANTSOME ACADEMY. DURING THIS COURSE, I ACHIEVED FOLLOWING KNOWLEDGE:

- a short introduction about software development lifecycles and working methodologies within teams;
 - short introduction about work coordination across teams - Git;
 - used Visual Studio Code for perform (code) and organizing the tasks;
 - putting in place the base structure of a web User Interface using HTML5 and semantic elements and styling it using CSS (basic SASS features also);
 - learnt and practiced Responsive Web Design principles (media queries, screen resolutions, cross-browser compatibility);
 - used Chrome Developer Tools to inspect the structure of User Interfaces and debug JavaScript code;
 - knowledge about basics JavaScript coding language and how the browser runs the JavaScript (variables and scoping, statements, functions, operators, data types);
 - basic knowledge (intro) about advanced JavaScript features (promise, callback, events..);
 - learnt how to work with the DOM (DOM Manipulation);
 - basic JavaScript algorithms (different types of programming paradigms - functional, OOP);
 - learnt about existent tools for transpiling unsupported JavaScript features for cross-browser compatibility;
 - introduction to HTTP basics - HTTP protocol that allows client - server communication (methods, status codes, requests, using AJAX techniques existent in JavaScript (XMLHttpRequest, fetch));
 - basic knowledge about JSON objects and types of storing data (localStorage, sessionStorage, cookies);
 - intro in JavaScript frameworks - ReactJS
-
- teaching and basic public speaking competence;
 - flexibility and adaptability;
 - team player;
 - creative thinking;
 - time management and multitasking
 - professional responsibility;
